

I'd like to tell the FCC that I benefit greatly from listening to XM Satellite Radio's traffic and weather channels. The satellite radio provides variety and quality that are not available elsewhere. I have already paid a significant amount (over \$500) for these services. It ABSOLUTELY should not be up to the National Association of Broadcasters (NAB) to dictate what I am permitted to hear on a private pay service. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support satellite radio's ability to provide the kind of programming that I deserve.
